

UNIQ[®] FOAM P-575

Solution of non-silicone defoaming polymers

UNIQ[®] FOAM P-575 is a strong anti-foam and air-release agent especially suitable for ambient-curing plastic systems, adhesives and sealants and coating industry, especially for epoxy and PU based resin systems. The additive furthermore helps to improve the leveling and avoids pinholing or popping.

Special Features

- Quick de-aeration and defoaming effect
- Suitable for pigment loading coating systems
- Can cause cloudiness in transparent systems
- Silicone-free
- Heat stable

Application

Adhesives and sealants	
Epoxy based	■
PU based	■
Ambient curing plastic	
Epoxy based	■
PU based	■

Product Specification

Density 20°C
Color
Appearance

0.86 g/cm³
Max. 3
Slight hazy liquid

Addition levels

- Based on total formulation: 0.1 – 1.0 %
Added in grinding stage or under high shear forces incorporation. Ensure good distribution to avoid craters.

Packaging

- 20 kg

Shelf life

UNIQ[®] FOAM P-575 should be stored in a cool dry place. When kept in an original unopened container, it will keep up to 5 years from the date of manufacture.
