

UNIQ[®] FLOW 6097

Polymeric Fluorocarbon Compound Leveling Agent

FEATURES & BENEFITS

In the applications, the following benefits are delivered:

- Silicone free
- Excellent leveling, long wave effect
- Good anti-cratering
- Good substrate wetting
- Good heat stability

PRODUCT DESCRIPTION

UNIQ[®] FLOW 6097 is a 100% active polymeric fluorocarbon compound leveling agent which can offer strong reduction of surface tension and will improve wetting and leveling property in inks and digital inks system.

APPLICATION

Solvent Based Digital Inks & Inks
UV Based Digital Inks & Inks

PHYSICAL PROPERTIES

Appearance
Active Solid %
Density, g/m³
Gardner Color

Light Yellow Clear Liquid
98
1.05-1.10
<4

DOSAGE LEVEL

0.1-0.5% on total formulation added at the end of batch preparation

SHELF LIFE/STORAGE

Shelf life: 5 years
For storage, please refer to the Material Safety Data Sheet.

PACKAGE

- 25 kg Pail
- 190 kg Drum
