# UNIQ®FLOW 489 U

Organically modified polysiloxane

**UNIQ**<sup>®</sup>**FLOW 489 U** is polysiloxane wetting and leveling agent is mainly used in water-based applications, but also suited to be used in solvent-based and solvent-free applications like in UV. The additive give excellent substrate wetting combined with low foam stabilization. It has excellent anti-crater working and is preventing edging. The product can be used in every paint layer without effecting the intercoat adhesion.

## **Special Features**

- **Excellent substrate wetting**
- Excellent anti-crater
- No influence on intercoat adhesion
- Low foam stabilization
- Effectively prevent edging

#### Application

Wood and furniture coatings	
Automotive and refinish coatings	
Can/coil coatings	
Protective coatings	
Industrial coatings

#### **Product Specification**

Active ingredients Density 20°C Color **Appearance** 

100 % 1.06 g/cm<sup>3</sup> Max.12 slight brownish hazy liquid

# **Addition levels**

Based on total formulation: 0.1 - 1.0 %

#### **Packaging**

- 25 kg
- 190 kg

### **Shelf life**

UNIQ®FLOW 489 U should be stored in a cool dry place. When kept in an original unopened container, it will keep up to 3 years from the date of manufacture.
