

# UNIQ<sup>®</sup> FOAM P-571

Solution of non-silicone defoaming polymers

**UNIQ<sup>®</sup> FOAM P-571** is a strong silicone free anti-foam and air-release agent for solvent-based and solvent free applications, especially suitable for systems based on unsaturated polyesters, epoxies and acrylic resin systems. The additive furthermore helps to improve the leveling.

## Special Features

- Quick de-aeration and defoaming effect
- Foam reduction during manufacturing
- Suitable for pigment loading systems
- Improves leveling
- Heat stable

## Application

Pultrusion of plastic systems	
Epoxy based	■
Unsaturated polyester	■
Ambient curing plastic	
Epoxy based	■
Unsaturated polyester	■
PVC Plasticsols	■

■ highly recommended  
□ recommended

## Product Specification

Density 20°C  
Appearance

0.81 g/cm<sup>3</sup>  
Colorless clear liquid

## Addition levels

- Based on total formulation: 0.1 – 1.0 %

Added in grinding stage or under high shear forces incorporation. Ensure good distribution to avoid craters.

## Packaging

- 22 kg
- 170 kg

## Shelf life

**UNIQ<sup>®</sup> FOAM P-571** should be stored in a cool dry place. When kept in an original unopened container, it will keep up to 5 years from the date of manufacture.
