

UNIQ[®] VIS 880 S

Additive to increase the conductivity of electrostatically sprayed solvent coating

Special Features

- Solvent borne applications
- Increase the conductivity of the paints(reduce the electrical resistance)
- Halogen free
- Stable even at low temperature
- Maintain film properties like adhesion, does not cause yellowing and stabilizes viscosity

Product Specification

Active ingredients	54 %
Solvent	n-Butanol
Density 20°C	0.90 g/cm ³
Color	Light yellowish liquid

Packing

- 25 kg
- 170 kg

Application

Architectural coatings	
Wood and furniture coatings	■
Automotive and refinish coatings	■
Can/coil coatings	■
Protective coatings	□

highly recommended ■
recommended □

Addition levels

Coatings and inks

Suggest to pre-mix with isobutanol at 1:1 or 1:2 in non polar system, which are thinned only with mineral spirits or xylene.

Total formulation 0.1 -2%

Can be added at the end of production

Shelf life

UNIQ[®] VIS 880 S should be stored in a cool dry place. When kept in an original unopened container, it will keep up to 5 years from the date of manufacture.
