

# UNIQ<sup>®</sup> FLOW 6135

Organically Modified Polysiloxane

## FEATURES & BENEFITS

In the applications, the following benefits are delivered:

- Excellent anti-cratering and leveling
- Excellent substrate wetting
- Good compatibility in water based system
- Good recoatability and minimal influence of interface adhesion
- Low foam stabilization

## PHYSICAL PROPERTIES

Appearance	Yellow Clear Liquid
Active Solid %	100
Density at 20°C	1.02 g/m <sup>3</sup>
Gardner Color	Max 3

## SHELF LIFE/STORAGE

Shelf life: 5 years

For storage, please refer to the Material Safety Data Sheet.

## PRODUCT DESCRIPTION

**UNIQ<sup>®</sup> FLOW 6135** is a 100% active polysiloxane leveling agent which will improve wetting and leveling property in inks and digital inks system.

### APPLICATION

Digital Inks & Inks

## DOSAGE LEVEL

0.1-1.0% on total formulation

## PACKAGE

- 25 kg Pail
- 180 kg Drum
